

DOMINIQUE WILLISON

At the age of 10 I saw a documentary about the paediatric ward of a UK hospital. I remember by the time the documentary had finished I had decided that what I wanted to do when I grew up was "save babies".

I studied a Bachelor of Nursing at Griffith University Gold Coast and graduated in 2007. For the past 5 years I have been working as a Registered Nurse in the Paediatric Intensive Care Unit of The Royal Children's Hospital – now Lady Cilento Children's Hospital. I am now also involved in clinical teaching for new staff and students in the PICU in my role as a Preceptor.

I met my then boyfriend 10 years ago and since then we've travelled overseas together, been married for 5 years and have 2 beautiful children.

I was in the graduating class of 2004 and have now been working for 5 years, as a Registered Nurse and Preceptor, in the leading QLD Paediatric Intensive Care Unit, at Lady Cilento Children's Hospital.
